

Respected Hiring Manager,

I am writing to express my interest in the Software developer, Android and Front-end Developer position at your company. As a recent B.Tech graduate done specification in CSE from Lakshmi Narain College of Technology and Science, Bhopal, MP. I am excited to apply for my skills and knowledge to a professional setting.

During my academic studies, I have gained extensive knowledge in programming languages such as Java, Android studio, Frontend (HTML, CSS, JS, Reactjs, Bootstrap, SASS) and Figma. I have also completed multiple projects which involved developing software applications for real-world problems. These projects have helped me develop strong problem-solving and analytical skills which I believe would be an asset to your company and not just through my projects but my hobbies too help me strengthen knowledge, confidence and strategic thinking. My project was about college management system in which I used Android Studio and Java where the students can view their attendance and posts, submit assignments and many things which teachers have set. Meanwhile, admin account has only permission to change all the settings they want.

In addition to my technical skills, I also have worked on improving teamwork skills through various group projects and presentations. I am confident that my ability to work in team with strong will and my strong work ethic, hard working nature and sincerely patience towards work make me an ideal candidate for this role.

I am always eager to learn more new technologies for this position which won't be a difficult task for me and I believe this position would provide me the opportunity to do so. I appreciate your consideration and look forward to the opportunity to discuss my qualifications further.

I'm grateful to you for giving me your time and consideration. Hoping to hear from you soon. Thank you so much.

Sincerely and Regards,

Srishti Shrivastava
